Long-term folding behaviour DIN EN ISO 32100 / based on DIN 53351/DIN 53359 - 50,000 folds	passed
Cigarette test DIN EN 1021-1/BS 5852	passed
Azo dyes	not verifiable
Aryl amines in accordance with applicable legal provisions	
Allergenic dispersion dyes in accordance with §64 LFGB B 82.02-10	not verifiable

COVER PROPERTIES

This synthetic leather is a smooth PU synthetic leather. The PU finish generally has a natural-looking leather appearance, ranging from smooth to strongly textured. Synthetic leather is characterised by its durability, wear resistance and ease of cleaning. Simply wiping with a damp cloth is all the cleaning needed. Do not use oily, greasy and abrasive cleaning agents, as they can damage the surface. Colour transfer from cushions and/or clothing does not represent a defect of the material. Deviations in colour and texture are typical of this type of product and do not constitute grounds for complaint.

Further test results are available from Cotta Collection AG on request.
